

Year	Employer	Client Sector	Responsibility on the Project	Scope i.e Private Cloud Migration to Public Cloud or Hybrid Cloud	Public cloud: AWS, Azure, Google,	Detail
2016	SystemsUp	Public	Requirements, HLD, LLD, PoC Build	On-premises to Public cloud	Azure	I was responsible for the Azure design of the migration of an on-premises VMware infrastructure (200+servers), test and implementation to Azure IaaS through a lift & shift migration model encompassing the whole project lifecycle: requirements gathering, discovery, HLD, LLD, test and implementation Azure Networking- Site-Site and vNet-vNet VPNs; vNets, network security groups etc
2016	SystemsUp	Telecoms	Pre-Sales, Requirements, LLD, PoC Build	3 tier web app setup in Public cloud	Azure	I led this project with workshops to produce proposal and SOW, project plan. Designed and implemented Azure Web App PaaS for a key LOB application, comprising of Front-end Web App and Back-end MySQL ClearDB PaaS.
2017	Cognizant	Transport	Requirements, Options, HLD,	On-premises to Public cloud	Azure	Was the Azure Infrastructure architect within a cloud first program team. Produced options document for roadmap to cloud; high level designs to Azure PaaS.
2017	Cognizant	Energy	Knowledge Acquisition, Documentation, Support, handover cloud to Support team	Public cloud Transition	Azure + AWS	I was the Azure lead for transitioning xxxx's Public cloud (mainly Azure) to Cognizant support. I led the knowledge acquisition to understand as-is processes from customer SMEs and produce operational runbooks.
2017-2018	Cognizant	Energy	LLD	On-premises to Public cloud	Azure	Produced design document for migration of individual applications to Azure using IaaS and PaaS.

2018	Cognizant	Financial	Pre-Sales, Discovery Workshops	Public cloud Target Operating Model	Azure	Involved in producing a target operating model to understand clients cloud adoption strategy and PaaS roadmap
2018	Nordcloud	Travel	LLD, Implementation; Security documentation	On-premises to Public cloud PaaS	Azure	Migration of datacentre based holiday travel booking application to Azure using PaaS components such as Key Vault, Web APIs, Redis cache, Azure SQL. ARM template implementation
2019	Nordcloud	Retail	Documentation, On-boarding to Managed cloud Services, Monitoring & Alerting	IaaS, PaaS (Service Bus, Web apps, Azure SQL)	Azure	On-boarding of customer services to Managed cloud, Setting up monitoring & alerting; Service Review
2019	Nordcloud	Business Intelligence	Design, Implementation, Support	IaaS, PaaS	Azure	Implementation of Azure resources such as Application gateways, Traffic Manager, Web apps for number of applications; Proposal for DNS provider changes
2019-Jan 2020	Seven Systems Consulting (contract)	Construction	Documentation, Implementation, Migration of IaaS Azure resources, On-premises application access using Azure App Proxy	IaaS, PaaS, hybrid	Azure	Azure IaaS Classic to ARM model migrations; Azure Web Apps and Azure AD Application Proxy; Azure B2B collaboration in hybrid organizations (Kerberos and SAML); Azure Monitoring with SolarWinds; Azure Guidelines document, Azure Web apps and ASE documents; Azure Automation using PowerShell
Feb - July 2020	Version1	Government	Discovery, Assessment, Documentation, Pricing, Migration Physical servers to Azure	IaaS	Azure	Azure landing zone implementation using ARM templates and migration of using Azure Migrate. Compliance to Security principles
Feb - July 2020	Version1	Energy	Discovery, Documentation, Workshops	IaaS/PaaS	Azure	Azure health check, best-practise review and remediation
Feb - July 2020	Version1	Education	Discovery, Documentation, Implementation, Workshops	IaaS/PaaS	Azure	Physical server Data migration to Azure Data Lake Azure Synapse Analytics
